Subject: former hospital site

Date: Thursday, August 23, 2007 1:41:32 PM

Dear Scott, I have a vision for the old hospital site; First let me say that no one can claim they are more unhappy with HCA Corp hospital closure than me. We all now know that site will never have a hospital given the economics.

Therefore lets look at the remaining options. When I spoke to City Officials over the years, their biggest complaint was that there was not a big enough site on E. Santa Clara Street to develop and make a real positive change . Well it has happened. There is now a 12 acre site that can not only be developed but TRANSFORM the area into the NAGLEE PARK akin to to Lincoln ave or The Alameda. I never thought I would see this GOLDEN OPPORTUNITY in my lifetime. Personally I am going to do everything I can to make Naglee Park Towers & Shopping Centre or what ever name it will be to help what is now an already depressed area. The City has been more than gracious with the various groups that wanted to see a hospital stay there. They should get on board with whomever is selected to develop and make NAGLEE PARK into something we can all be proud of. There is no real downside to this vision for our community. A few examples.

1. This will create jobs and economic development in a very depressed area.

1 this will be done without City subsides.

3. This will give San Jose City Hall from the East a viable and beautiful entryway.

4. We will have a beautiful mix of homes and commercial linking Walgreens with the rest of the street.

5.JOBS, JOBS, JOBS, JOBS, JOBS, JOBS,

Scott, I could go on an on about all the positive aspects a development like this could bring to the entire neighborhood an the community at large.

Scott I will sit down with anyone to discuss this issue. Please think about all the positive benefits that could come of of this development. I implore you to get on board with this vision. It will benefit everybody, not just special interest

Thanks for considering views on this very important issue.
